## Luxury Seaview Duplex Penthouse in Athenian Riviera

#1058

€855,000

The building was designed in detail in all aspects, respecting both its environment and the needs of every type of user. The building includes 8 apartments that meet the needs of an average family. Specifically, 4 maisonettes and 4 apartments were designed. Both the half dwelling areas of the apartments and the bedrooms are oriented in such a way that the maximum possible openings can be reached, for the unobstructed view to the sea and the green hill.

The characteristic feature of this apartment building is its large and of-unique-geometry balconies as well as the orientation of the whole building in such a way to offer the maximum of the views. The final result gives the tenant the impression that he lives in an apartment designed in a unique way, in a luxurious building of an exceptional architectural style.
